# HELP TO PROTECT OUR TREES!
WE FOR NATURE, NATURE FOR US!

DO'S

Planting of trees and taking care of young trees helps us to live a healthier life.

Collect waste in the community and in the environment so that it doesn't do harm to animals and humans.

Protecting trees ensures healthy living of human beings and biodiversity.

DONT'S

Don't cut trees. They provide us with oxygene and prevent us from floodings and other environmental disasters.

Don't throw your waste in the environment and in the sea. It is harmful to animals and human health.

Don't burn trees and forests. They are important habitats that provide us with fresh air and cool climate.
