

World Wetlands Day 2024

Wetlands and Human Well-being

Every wetland creature is a wonder to preserve.

Healthy wetlands protect against extreme weather events.

Wetlands and people. We need each other.

Wetlands provide us with water and food and support biodiversity.

Wetlands. Nature's greatest resource.

Healthy wetlands mitigate climate change.

Wetlands landscapes nurture wellbeing and mental health.

Wetlands provide livelihoods.

Conservation Society of Sierra Leone
Connecting people to nature.
